## BACK FROM JEFFERSON CITY.

Attorney Ellis G. Cook Returned From a Visit With Governor Hadley in Regard to Hez Rasco.

Ellis G. Cook, one of the attorneys for Hez Rasco, returned Thursday evening from Jefferson City, where he was in conference with Governor Hadley in an effort to get the governor to commute the death sentence of Rasco to life imprisonment.

Mr. Cook, when asked if he accomplished anything by seeing the governor in the interest of his client, said: "I am not going to talk for publication."

Attorney Cook stopped over in St. Joseph on his way home from Jefferson City and had quite a conference with Hez Rasco at the Buchanan county jail Thursday.

Henry Rasco, the aged father of Hez Rasco, was in Maryville Friday afternoon and was in conference with Attorney Cook. It is said that Mr. Rasco has about decided to get up a petition asking the governor to commute the death sentence.

## A MISSIONARY RALLY.

Being Held at the First Christian Church Today—Four Missionaries Here.

A missionary rally is being held today at the First Christian church of this city, which is being well attended by the ministers of the Christian churches over the county, and also members of the church here. The four missionaries that are in the city are A. McLean, who is president of the Foreign Christian Missionary society; Dr. A. L. Shelton of Tibet, China; B. L. Kirshner of Manila, and W. B. Stephens of Newton, Ky.

A morning and an afternoon session was held today at which missionary principles were discussed and methods and plans for the church, Sunday school and Christian Endeavor society were considered.

The rally will close with this evening's session. The missionaries will give short addresses, and there will be stereopticon and moving pictures.

## NOW FOR THE CAMPAIGN.

Clark Started for the Presidency, Democratic Party Now Faces gubernatorial Fight.

Missouri Democracy has emerged from the presidential muddle, which the state convention settled decisively for Clark only to find another problem also as puzzling to solve. New it is the governorship.

Instead of a candidate or two candidates being developed out of the state convention, the delegates went home with five avowed candidates in the field and with three or four others feeling the desire to run. None of the candidates show any disposition to step out of the way.

"I have flown my flag to the breeze and it's not going to be pulled down," Elliott Major, attorney general declared. "No combination of any kind can be made now to pull me out of the race. I am in it until the votes are counted."

Major comes from Pike county. The home of Speaker Clark also has another candidate for governor in the person of David A. Ball. Ball was defeated by W. S. Cowherd for the nomination four years ago. An effort was made to pull him out of the race at Joplin, but Ball wouldn't pull.

"I'm going to stick in the race and tell Democracy something about the men who are trying to throttle the sentiment for me," Ball said. "Before I get through with them the fur will be flying."

A. H. Boite of St. Louis, a former lieutenant governor, and James A. Houchin of Jefferson City have opened their campaigns with the same "I'm in to stick" declaration.

It is expected that Judge James Cowgill, state treasurer, will announce in a few days. Cowgill has been flirting with the field for weeks and has developed strength over the state. John T. Barker of La Plata, W. D. Vandiver, a folk leader, and ex-Senator F. M. Cockrell are among those who are being urged by their friends "to get into the race."

There were a number of Democrats at the Joplin convention who were in favor of W. S. Cowherd of Kansas City for governor. His friends are trying to induce him to again run for the Democratic nomination.

## PRAISE FOR NORMAL

TEACHERS SENT FROM THERE GIVING SATISFACTION.

## WHAT ONE TEACHER DID

Introduced Manual Training in Rural School and Directors Appropriated Money to Buy Equipment.

That the Maryville Normal school is sending out teachers that are giving the utmost satisfaction is very evident from a letter received by President Taylor this morning from a county superintendent of this district in whose schools one of the graduates of the Normal is now teaching.

"If you have any more teachers to send out that will be as satisfactory as the lady we have in our schools, who is a graduate of your Normal, we want them."

There is certainly no better advertisement for a school than the success of the teachers sent out by that institution, and the local school has sent out, during her brief career, a larger number of teachers who have "delivered the goods."

Another evidence of the competency of the students of the institution on the hill was a brief summary of the work accomplished in a county school with an enrollment of twelve pupils. This interesting talk was by Miss Myrtle McPherson, who has charge of a rural school near Stanberry. As a result of her training in manual training at the Normal, Miss McPherson has been able to introduce into that rural school manual training—not bench work, but the hand work. This branch of study has stirred up such an interest in the school that the board of directors has voted a fair sum of money for the equipment of the manual training department. Manual training in the rural schools in this part of the country is very rare, indeed.

In the same mail with the letter mentioned above, came to Dr. Taylor a letter from an eminent educator of Chicago, who, a short time since, had occasion to visit the different schools of Missouri. This man, whose specialty is art, said that in no school in the state of Missouri was there being done more creditable and excellent work in art than at the Northwest Missouri Normal under the direction of Miss Harriet Day.

Such endorsements as those should bring people to the realization that the Northwest Normal is an institution that is acquiring a reputation through the merits of the work accomplished.

## TO PLAY ST. JOSEPH.

Local High School Basketball Team Ready for the Game and Expects to Win.

Saturday afternoon the high school will play the Central High school of St. Joseph. Although the local boys are getting just a little out of their class, they think they can at least make a very interesting game here for the visitors. However, if Central plays the same kind of basketball this time that she did in her game with the Normal, the fans say that the local high school will win by a large score.

It is hoped that a large aggregation of the high school rooters will turn out to this game, as the team always needs the support of its school. The line-up for the Maryville boys will probably be: Quinn, center; Leach, Staples, forwards; Gray, Gibson, guards; Strader, substitute. The game tomorrow will commence promptly at 2:15 at the Normal gymnasium.

The team will play a return game with St. Joseph on Saturday, March 2.

## MAY NOT BE REORGANIZED.

Clarinda and Shenandoah Said to Be Unwilling to Stay in Mink League.

The Mink league will probably be disbanded, according to reports in Shenandoah. The Iowa cities, Clarinda and Shenandoah, are said to be unwilling to stay in the league as at present constituted. The troubles date back to the cancellation of the Maryville franchise last season. Plans are under way to organize as the South-eastern Nebraska league, including Nebraska City, Humboldt, Auburn, Falls City, Beatrice and either Wilbur or Fairbury.

Joseph Carden of Quitman and F. M. Compton of Burlington Junction were city visitors Friday.

Thomas Cunningham of Clyde was a visitor in Maryville Thursday.

## HONORS WERE EVEN

NORMAL AND HIGH SCHOOL EACH WON IN ORATIONS.

## FARMER WON LINCOLN CUP

Miss Julia Ficklin Was First in Contest for Washington Cup—Immense Audience Present.

Honors were equally divided between the Normal and high school in the Lincoln-Washington oratorical contest which took place in the auditorium of the First M. E. church last night. The Normal school retains the Washington loving cup by virtue of Miss Julia Ficklin's oration, and Mr. Ralph Farmer gained the Lincoln cup for the high school. However, that is not lowering the standards of the work of the losers, Miss Mary Halasy and Mr. Stephen Williams, for, according to the judges of the contest, the decisions were extremely close. Not too much credit can be given the contestants for their excellent orations, each one of which was received with deafening applause.

The audience that packed the auditorium to its utmost capacity was probably one of the largest crowds that ever gathered there, and without doubt the church never held a more enthusiastic audience. The students of the Normal were gathered on the north side of the balcony and the high school followers crowded the south side, and the manner in which both student bodies gave yells and sang songs made one feel proud to be a member of either crowd. Pennants and flags were very much in evidence in each section.

Following the decision of the judges the beautiful loving cups were presented to the successful contestants by Nathaniel Sisson. Mr. Sisson paid excellent tributes to Superintendent C. A. Hawkins and President Taylor in the course of his speech. Mr. Sisson explained to the audience and to the contestants that since the Grand Army's ranks were slowly dwindling that the local post had decided upon the plan of the annual oratorical contests to keep the memory of the G. A. R. in the hearts and minds of the coming generation. Mr. Sisson also explained that the Washington cup was the gift of the Women's Relief Corps and the Lincoln cup the gift of the G. A. R.

In presenting the trophies, Mr. Sisson told the contestants that the winning of the contest was a trivial matter, but that the great honor lay in being selected to represent their respective schools. "And in this respect," said the speaker, "your honors are all equal."

According to the directions of the lodges presenting the loving cups, the trophies will be placed in the library of the Normal school, with the proper inscriptions, until the next contest.

## STILL BUSY AT WORK.

Many Witnesses Appeared Before the Grand Jury Today—A Number From Graham and Clearmont.

The grand jury was still grinding away Friday, and a large number of witnesses from Graham, Clearmont and Burlington Junction were examined. The grand jurors seem to think that there has been some violations of the laws at Clearmont and at Graham, according to the number of people from those towns that appeared before them.

## DRAINAGE BOARD MET.

Took Up Routine Matters—Pistole's Term as Commissioner Expires in May.

### GOOD ADVERTISING.

Effective advertising must reach the people. The most effective is that which the people find in the home paper which they buy because they want it, and in which they expect to find the store news. Free hand bill propositions are practically worthless. But given the medium the advertiser must present his arguments properly. The following suggestion is printed in the Mower County Republican, a Minnesota paper:

"One principle of successful advertising practiced by department store ad writers and other specialists on publicity is to give definite description of the goods offered. When a merchant uses such phrases as 'the best is the cheapest' and 'biggest assortment and lowest prices' he convinces no one. The reader argues that anyone can use these catch words and they prove nothing. The most successful advertising is not apt to sound like an attempt to persuade. It is more a statement of facts. The reader is given material by which he forms his own mental picture of the goods. For this purpose try definite and detailed, though very brief, descriptions. Get manufacturers of your lines to give some definite facts about how the goods are put together so that you can give some real reasons why goods are superior. Pick out some special bargains, describe them as above indicated and put in the price and the real value you believe them to have. Don't bother about flowery language. What the buyer wants is facts, 'reasons why' advertising is what brings the buyer around."

### NEWSPAPER LAW.

Judges James Ellison of the Kansas City court of appeals, handed down the following decision in the case of Austin vs. Burge:

"The preparation and publication of a newspaper involves much mental and physical labor, as well as an outlay of money. One who accepts the paper by continuously taking it from the postoffice receives a benefit and pleasure arising from such labor and

expenditures as fully as if he had appropriated any other product of another's labor, and by such act he must be held liable for the subscription price."

## The Adjusto Corset is a Perfect Reducing Corset

Every woman of full figure, and those of average and even slender build, desiring the firm yet comfortable support of a perfect reducing corset, should wear the Adjusto. There is no other corset made like the Adjusto, and no other reducing corset so good, for the Adjusto has a score of patented features that cannot be procured in any other corset.

The Adjusto is designed to promote symmetry where stoutness prevails—to flatten and reduce the abdomen hips—to subdue all prominent curves—to mould all excess flesh and distribute it equally—to effectually support the form and give it proper poise—to form the correct base for fashionable gowns—to create and preserve the ideal contour.

The Adjusto Corset, style 608, illustrated here, is similar to many of the Bon Ton models, except that it has the famous 'reducing bands' which can be tightened or loosened to any degree without removing the corset. The Adjusto is very little heavier than the other models. They are double boned and otherwise reinforced to stand strain and hard wear. This model is for full and average figures; low bust, long skirt. Made of fine white coutil. Price \$3

## Tomorrow is the Last Day of the Demonstration

## GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit.

The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers.

The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow.

## DE LAVAL CREAM SEPARATOR

More Than  
1,375,000  
in Use

### The Machine By Which All Others Are Judged

For more than thirty years the De Laval cream separator has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a De Laval;" or if some competing salesman wants to make his argument particularly strong, he'll say "It's better than a De Laval."

The concern with a cheaply and poorly constructed machine says "Just as good as a De Laval and costs less."

But everywhere the De Laval is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the De Laval.

SOONER OR LATER  
YOU WILL BUY A

## CASH REGISTER MEN FACE JAIL

Thirty Trust Officers and Employees Indicted at Cincinnati.

### MEANS CRIMINAL PROSECUTION

Indictments Charge Competitors Were Driven Out of Business by Various Forms of Approved Trust Methods.

Cincinnati, Feb. 23.—Thirty officials and employees of the National Cash Register company of Dayton, O., were indicted on charges of criminal violation of the Sherman anti-trust law here.

The officers and employees of the National Cash Register company indicted include: John A. Patterson, president; E. A. Deeds, vice-president; G. C. Edgeter, W. F. Bippus, treasurer.

#### Drove Out Competitors.

In the indictments the first count charges that nearly all competitors of the concern have been bought out or driven out of business. It is charged that restraint has been in operation for the last 20 years, although the specific charge is confined to the last three years.

It is said to have been effected by bribing employees of competitors and transportation, telegraph and telephone companies, and injuring the credit of competitors in libeling their machines.

#### Monopolized Business.

The second and third counts charge the defendants with monopolizing the cash register business by the same means.

Specifically it was charged that competitors of the register company were driven out of business by interference with their employees, by libeling their machines, cutting prices, selling imitations of competitive machines made to use as "knockers" and injuring competitive machines in every possible way.

It also was charged that the company's selling plan included the threatening of suits merely for the purpose of harassing manufacturers and purchasers and in organizing bogus corporations pretending to be competitors as well as making applications for patents on the machines and improvements invented by competitors.

#### Five Not Indicted.

All except seven of the defendants were among those named December 4 in the civil suit started by the government to restrain them from attempting to monopolize the cash register business.

J. A. Oswald, S. W. Davies, George C. Shaw, E. H. Bunstine and H. G. Carnell, members of the board of directors when the civil action was filed and made defendants to it, were not named in the indictment.

### ENGLAND WANTS NO COAL STRIKE

Government Begins Negotiations for Peace—Walkout Would Paralyze British Commerce.

London, Feb. 23.—The government opened negotiations for peace in the British coal dispute, which threatens to paralyze British trade if the eight hundred thousand miners carry out their intention of striking February 27.

Premier Asquith, supported by Sydney Charles Buxford, president of the board of trade; David Lloyd-George, chancellor of the exchequer; Sir Edward Grey, secretary of state for foreign affairs, and Sir George Asquith, comptroller general of the commercial and labor department of the board of trade, held a conference with the representatives of the miners and subsequently met a large deputation of coal owners.

### HOUSTON FIRE COST 5 MILLIONS

Careful Rechecking Shows Heaviest Loss on Baled Cotton and Compresses.

Houston, Tex., Feb. 23.—A careful rechecking of losses in the great fire places the total loss in excess of \$5,000,000. The heaviest losses include 53,900 bales of cotton, two compresses and a cotton warehouse. The compresses are the Standard and the Cleveland, and the warehouse that of the McFadden Agency. Besides those the properties destroyed included 11 industrial plants, one church, one school, eight brick business buildings, 119 residences and 124 box and tank cars.

#### "Stay Home and Avoid Bombs."

Springfield, Mo., Feb. 23.—Michael Charnock, a stonecutter living here, received a letter threatening that unless he and his wife become reconciled his home and that of his brother-in-law would be blown up. Charnock and his wife have been separated for several weeks. The letter was given to the police. Charnock was injured recently in a stabbing affray.

New Depot for Springfield.  
Springfield, Mo., Feb. 23.—President B. L. Winchell said at a dinner given in his honor by the Young Men's Business club of Springfield that within a few months work would begin on a new Frisco depot for this city, which will be planned to accommodate a city of 125,000 population.

### ARE MICROBES IN YOUR SCALP?

It Has Been Proved That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebun, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "33" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "33" Hair Tonic accomplishes these results by adding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "33" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store—The Rexall Store, The Grear-Henry Drug Co., 113 North Main Street.

## BACK FROM JEFFERSON CITY.

Attorney Ellis G. Cook Returned From a Visit With Governor Hadley in Regard to Hez Rasco.

Ellis G. Cook, one of the attorneys for Hez Rasco, returned Thursday evening from Jefferson City, where he was in conference with Governor Hadley in an effort to get the governor to commute the death sentence of Rasco to life imprisonment.

Mr. Cook, when asked if he accomplished anything by seeing the governor in the interest of his client, said: "I am not going to talk for publication."

Attorney Cook stopped over in St. Joseph on his way home from Jefferson City and had quite a conference with Hez Rasco at the Buchanan county jail Thursday.

Henry Rasco, the aged father of Hez Rasco, was in Maryville Friday afternoon and was in conference with Attorney Cook. It is said that Mr. Rasco has about decided to get up a petition asking the governor to commute the death sentence.

## A MISSIONARY RALLY.

Being Held at the First Christian Church Today—Four Missionaries Here.

A missionary rally is being held today at the First Christian church of this city, which is being well attended by the ministers of the Christian churches over the county, and also members of the church here. The four missionaries that are in the city are A. McLean, who is president of the Foreign Christian Missionary society; Dr. A. L. Shelton of Tibet, China; B. L. Kirshner of Manila, and W. B. Stephens of Newton, Ky.

A morning and an afternoon session was held today at which missionary principles were discussed and methods and plans for the church, Sunday school and Christian Endeavor society were considered.

The rally will close with this evening's session. The missionaries will give short addresses, and there will be stereopticon and moving pictures.

## NOW FOR THE CAMPAIGN.

Clark Started for the Presidency, Democratic Party Now Faces gubernatorial Fight.

Missouri Democracy has emerged from the presidential muddle, which the state convention settled decisively for Clark only to find another problem also as puzzling to solve. New it is the governorship.

Instead of a candidate or two candidates being developed out of the state convention, the delegates went home with five avowed candidates in the field and with three or four others feeling the desire to run. None of the candidates show any disposition to step out of the way.

"I have flown my flag to the breeze and it's not going to be pulled down," Elliott Major, attorney general declared. "No combination of any kind can be made now to pull me out of the race. I am in it until the votes are counted."

Major comes from Pike county. The home of Speaker Clark also has another candidate for governor in the person of David A. Ball. Ball was defeated by W. S. Cowherd for the nomination four years ago. An effort was made to pull him out of the race at Joplin, but Ball wouldn't pull.

"I'm going to stick in the race and tell Democracy something about the men who are trying to throttle the sentiment for me," Ball said. "Before I get through with them the fur will be flying."

A. H. Bolte of St. Louis, a former lieutenant governor, and James A. Houchin of Jefferson City have opened their campaigns with the same "I'm in to stick" delegation.

It is expected that Judge James Cowgill, state treasurer, will announce in a few days. Cowgill has been flitting with the field for weeks and has developed strength over the state. John T. Barker of La Plata, W. D. Vandiver, a folk leader, and ex-senator F. M. Cockrell are among those who are being urged by their friends "to get into the race."

There were a number of Democrats at the Joplin convention who were in favor of W. S. Cowherd of Kansas City for governor. His friends are trying to induce him to again run for the Democratic nomination.

## PRAISE FOR NORMAL

TEACHERS SENT FROM THERE GIVING SATISFACTION.

## WHAT ONE TEACHER DID

Introduced Manual Training in Rural School and Directors Appropriated Money to Buy Equipment.

That the Maryville Normal school is sending out teachers that are giving the utmost satisfaction is very evident from a letter received by President Taylor this morning from a county superintendent of this district in whose schools one of the graduates of the Normal is now teaching.

"If you have any more teachers to send out that will be as satisfactory as the lady we have in our schools, who is a graduate of your Normal, we want them."

There is certainly no better advertisement for a school than the success of the teachers sent out by that institution, and the local school has sent out, during her brief career, a larger number of teachers who have "delivered the goods."

Another evidence of the competency of the students of the institution on the hill was a brief summary of the work accomplished in a county school with an enrollment of twelve pupils.

This interesting talk was by Miss Myrtle McPherson, who has charge of a rural school near Stanberry. As a result of her training in manual training at the Normal, Miss McPherson has been able to introduce into that rural school manual training—not bench work, but the hand work. This branch of study has stirred up such an interest in the school that the board of directors has voted a fair sum of money for the equipment of the manual training department. Manual training in the rural schools in this part of the country is very rare, indeed.

In the same mail with the letter mentioned above, came to Dr. Taylor a letter from an eminent educator of Chicago, who, a short time since, had occasion to visit the different schools of Missouri. This man, whose specialty is art, said that in no school in the state of Missouri was there being done more creditable and excellent work in art than at the Northwest Missouri Normal under the direction of Miss Harriet Day.

Such endorsements as those should bring people to the realization that the Northwest Normal is an institution that is acquiring a reputation through the merits of the work accomplished.

## TO PLAY ST. JOSEPH.

Local High School Basket Ball Team Ready for the Game and Expects to Win.

Saturday afternoon the high school will play the Central High school of St. Joseph. Although the local boys are getting just a little out of their class, they think they can at least make a very interesting game here for the visitors. However, if Central plays the same kind of basket ball this time that she did in her game with the Normal, the fans say that the local high school will win by a large score. It is hoped that a large aggregation of the high school rooters will turn out to this game, as the team always needs the support of its school. The line-up for the Maryville boys will probably be: Quinn, center; Leach, Staples, forwards; Gray, Gibson, guards; Strader, substitute. The game tomorrow will commence promptly at 2:15 at the Normal gymnasium.

The team will play a return game with St. Joseph on Saturday, March 2.

## MAY NOT BE REORGANIZED.

Clarinda and Shenandoah Said to Be Unwilling to Stay in Mink League.

The Mink league will probably be disbanded, according to reports in Shenandoah. The Iowa cities, Clarinda and Shenandoah, are said to be unwilling to stay in the league as at present constituted. The troubles date back to the cancellation of the Maryville franchise last season. Plans are under way to organize as the South-eastern Nebraska league, including Nebraska City, Humboldt, Auburn, Falls City, Beatrice and either Wilbur or Fairbury.

Joseph Carden of Quitman and F. M. Compton of Burlington Junction were city visitors Friday.

Thomas Cunningham of Clyde was a visitor in Maryville Thursday.

## HONORS WERE EVEN

NORMAL AND HIGH SCHOOL EACH WON IN ORATIONS.

## FARMER WON LINCOLN CUP

Miss Julia Ficklin Was First in Contest for Washington Cup—Immense Audience Present.

Honors were equally divided between the Normal and high school in the Lincoln-Washington oratorical contest which took place in the auditorium of the First M. E. church last night. The Normal school retains the Washington loving cup by virtue of Miss Julia Ficklin's oration, and Mr. Ralph Farmer gained the Lincoln cup for the high school. However, that is not lowering the standards of the work of the losers, Miss Mary Halasy and Mr. Stephen Williams, for, according to the judges of the contest, the decisions were extremely close. Not too much credit can be given the contestants for their excellent orations, each one of which was received with deafening applause.

The audience that packed the auditorium to its utmost capacity was probably one of the largest crowds that ever gathered there, and without doubt the church never held a more enthusiastic audience. The students of the Normal were gathered on the north side of the balcony and the high school followers crowded the south side, and the manner in which both student bodies gave yells and sang songs made one feel proud to be a member of either crowd. Pennants and flags were very much in evidence in each section.

Following the decision of the judges the beautiful loving cups were presented to the successful contestants by Nathaniel Sisson. Mr. Sisson paid excellent tributes to Superintendent C. A. Hawkins and President Taylor in the course of his speech. Mr. Sisson explained to the audience and to the contestants that since the Grand Army's ranks were slowly dwindling that the local post had decided upon the plan of the annual oratorical contests to keep the memory of the G. A. R. in the hearts and minds of the coming generation. Mr. Sisson also explained that the Washington cup was the gift of the Women's Relief Corps and the Lincoln cup the gift of the G. A. R.

In presenting the trophies, Mr. Sisson told the contestants that the winning of the contest was a trivial matter, but that the great honor lay in being selected to represent their respective schools. "And in this respect," said the speaker, "your honors are all equal."

According to the directions of the lodges presenting the loving cups, the trophies will be placed in the library of the Normal school, with the proper inscriptions, until the next contest.

#### GOOD ADVERTISING.

Effective advertising must reach the people. The most effective is that which the people find in the home paper which they buy because they want it, and in which they expect to find the store news. Free hand bill propositions are practically worthless. But given the medium the advertiser must present his arguments properly. The following suggestion is printed in the Mower County Republican, a Minnesota paper:

"One principle of successful advertising practiced by department store ad writers and other specialists on publicity is to give definite description of the goods offered. When a merchant uses such phrases as 'the best is the cheapest' and 'biggest assortment and lowest prices' he convinces no one. The reader argues that anyone can use these catch words and they prove nothing. The most successful advertising is not apt to sound like an attempt to persuade. It is more a statement of facts. The reader is given material by which he forms his own mental picture of the goods. For this purpose try definite and detailed, though very brief, descriptions. Get manufacturers of your lines to give some definite facts about how the goods are put together so that you can give some real reasons why goods are superior. Pick out some special bargains, describe them as above indicated and put in the price and the real value you believe them to have. Don't bother about flowery language. What the buyer wants is facts, 'reasons why' advertising is what brings the buyer around."

#### NEWSPAPER LAW.

Judges James Ellison of the Kansas City court of appeals, handed down the following decision in the case of Austin vs. Burge:

"The preparation and publication of a newspaper involves much mental and physical labor, as well as an outlay of money. One who accepts the paper by continuously taking it from the postoffice receives a benefit and pleasure arising from such labor and

expenditures as fully as if he had appropriated any other product of another's labor, and by such act he must be held liable for the subscription price."

## The Adjusto Corset is a Perfect Reducing Corset

Every woman of full figure, and those of average and even slender build, desiring the firm yet comfortable support of a perfect reducing corset, should wear the Adjusto. There is no other corset made like the Adjusto, and no other reducing corset so good, for the Adjusto has a score of patented features that cannot be procured in any other corset.

The Adjusto is designed to promote symmetry where stoutness prevails—to flatten and reduce the abdomen hips—to subdue all prominent curves—to mould all excess flesh and distribute it equally—to effectually support the form and give it proper poise—to form the correct base for fashionable gowns—to create and preserve the ideal contour.

The Adjusto Corset, style 608, illustrated here, is similar to many of the Bon Ton models, except that it has the famous 'reducing bands' which can be tightened or loosened to any degree without removing the corset. The Adjusto is very little heavier than the other models. They are double boned and otherwise reinforced to stand strain and hard wear. This model is for full and average figures; low bust, long skirt. Made of fine white coutil. Price \$3

## GRANDMOTHERS USED SAGE TEA

To Darken the Hair and Restore Gray and Faded Hair to Its Natural Color.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hairs before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair and are fast following suit. The present generation has the advantage of the past in that it can get a ready-to-use preparation called Wyeth's Sage and Sulphur Hair Remedy. As a scalp tonic and color restorer this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers. The growth and beauty of the hair depends on a healthy condition of the scalp. Wyeth's Sage and Sulphur Hair Remedy quickly kills the dandruff germs which rob the hair of its life, color and lustre, makes the scalp clean and healthy, gives the hair strength, color and beauty, and makes it grow. Get a 50 cent bottle from your druggist today. He will give you money back if you are not satisfied after a fair trial. Special Agent, Koch Pharmacy.

## DE LAVAL CREAM SEPARATOR

More Than  
1,375,000  
in Use

The Machine By Which  
All Others Are Judged

For more than thirty years the De Laval cream separator has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a De Laval;" or if some competing salesman wants to make his argument particularly strong, he'll say "It's better than a De Laval."

The concern with a cheaply and poorly constructed machine says "Just as good as a De Laval and costs less."

But everywhere the De Laval is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the De Laval.

SOONER OR LATER  
YOU WILL BUY A  
DE LAVAL

"I have been using Parisian Sage about a year. When I began to use it I had only a light 'fuzz' on my head. Now I have a good thick growth, and it is growing thicker and longer right along. Many people don't believe it can be done, but I know can be done, but I know from my own experience with Parisian Sage that it can; I recommend it in the fullest confidence.—Gaines Brown, 708 North Fillmore St., Maryville, Mo.

## CASH REGISTER MEN FACE JAIL

Thirty Trust Officers and Employees Indicted at Cincinnati.

### MEANS CRIMINAL PROSECUTION

Indictments Charge Competitors Were Driven Out of Business by Various Forms of Approved Trust Methods.

Cincinnati, Feb. 23.—Thirty officials and employees of the National Cash Register company of Dayton, O., were indicted on charges of criminal violation of the Sherman anti-trust law, by a special federal grand jury here.

The officers and employees of the National Cash Register company indicted include: John A. Patterson, president; E. A. Deeds, vice-president; G. C. Edgeter, W. E. Bippus, treasurer.

**Drove Out Competitors.** In the indictments the first count charges that nearly all competitors of the concern have been bought out or driven out of business. It is charged that restraint has been in operation for the last 20 years, although the specific charge is confined to the last three years.

It is said to have been effected by bribing employees of competitors and transportation, telegraph and telephone companies, and injuring the credit of competitors in libeling their machines.

**Monopolized Business.** The second and third counts charge the defendants with monopolizing the cash register business by the same means.

Specifically it was charged that competitors of the register company were driven out of business by interference with their employees, by libeling their machines, cutting prices, selling imitations of competitive machines made to use as "knockers" and injuring competitive machines in every possible way.

It also was charged that the company's selling plan included the threatening of suits merely for the purpose of harassing manufacturers and purchasers and in organizing bogus corporations pretending to be competitors as well as making applications for patents on the machines and improvements invented by competitors.

**Five Not Indicted.** All except seven of the defendants were among those named December 4 in the civil suit started by the government to restrain them from attempting to monopolize the cash register business.

J. A. Oswald, S. W. Davies, George C. Shaw, E. H. Dunstine and H. G. Carnell, members of the board of directors when the civil action was filed and made defendants to it, were not named in the indictment.

### ENGLAND WANTS NO COAL STRIKE

Government Begins Negotiations for Peace—Walkout Would Paralyze British Commerce.

London, Feb. 23.—The government opened negotiations for peace in the British coal dispute, which threatens to paralyze British trade if the eight hundred thousand miners carry out their intention of striking February 24.

Premier Asquith, supported by Sydney Charles Buxford, president of the board of trade; David Lloyd-George, chancellor of the exchequer; Sir Edward Grey, secretary of state for foreign affairs, and Sir George Asquith, comptroller general of the commercial and labor department of the board of trade, held a conference with the representatives of the miners and subsequently met a large deputation of coal owners.

### HOUSTON FIRE COST 5 MILLIONS

Careful Rechecking Shows Heaviest Loss on Baled Cotton and Compresses.

Houston, Tex., Feb. 23.—A careful rechecking of losses in the great fire places the total loss in excess of \$5,000,000. The heaviest losses include 53,900 bales of cotton, two compresses and a cotton warehouse. The compresses are the Standard and the Cleveland, and the warehouse that of the McFadden Agency. Besides those the properties destroyed included 11 industrial plants, one church, one school, eight brick business buildings, 119 residences and 124 box and tank cars.

**"Stay Home and Avoid Bombs."** Springfield, Mo., Feb. 23.—Michael Charnock, a stonecutter living here, received a letter threatening that unless he and his wife become reconciled his home and that of his brother-in-law would be blown up. Charnock and his wife have been separated for several weeks. The letter was given to the police. Charnock was injured recently in a stabbing affray.

**New Depot for Springfield.** Springfield, Mo., Feb. 23.—President B. L. Winchell said at a dinner given in his honor by the Young Men's Business club of Springfield that within a few months work would begin on a new Frisco depot for this city, which will be planned to accommodate a city of 125,000 population.

### ARE MICROBES IN YOUR SCALP?

It Has Been Proved That Microbes Cause Baldness.

Professor Unna of Hamburg, Germany, and Dr. Sabourand, the leading French dermatologist, discovered that a microbe causes baldness. Their theory has time and again been amply verified through research experiments carried on under the observation of eminent scientists. This microbe lodges in the Sebium, which is the natural hair oil, and when permitted to flourish it destroys the hair follicles and in time the pores entirely close, and the scalp gradually takes on a shiny appearance. When this happens there is no hope of the growth of hair being revived.

We have a remedy which will, we honestly believe, remove dandruff, exterminate the microbe, promote good circulation in the scalp and around the hair roots, tighten and revitalize the hair roots, and overcome baldness, so long as there is any life left in the hair roots.

We back up this statement with our own personal guarantee that this remedy called Rexall "93" Hair Tonic will be supplied free of all cost to the user if it fails to do as we state.

It will frequently help to restore gray and faded hair to its original color, providing loss of color has been caused by disease; yet it is in no sense a dye. Rexall "93" Hair Tonic accomplishes these results by aiding in making every hair root, follicle, and pigment gland strong and active, and by stimulating a natural flow of coloring pigment throughout the hair cells.

We exact no obligations or promises—we simply ask you to give Rexall "93" Hair Tonic a thorough trial and if not satisfied tell us and we will refund the money you paid us for it. Two sizes, prices 50 cents and \$1.00. Remember, you can obtain it only at our store—The Rexall Store, The Orear-Henry Drug Co., 113 North Main Street.
